# SOURCE WATER COLLABORATIVE

## UNITED TO PROTECT AMERICA'S SOURCES OF DRINKING WATER

---

### *Our Mission*

---

We, the undersigned organizations committed to safe drinking water, hereby agree to work together at the source – on the lakes, streams, rivers and aquifers we tap for drinking water and on the land which protects and recharges those bodies of water.

As the population grows and the countryside develops, drinking water protection should be integrated into land use planning and stewardship; road, sewer and water projects; farming, industry and development practices; waste disposal methods; watershed planning, protection and clean-up; and the routine decisions Americans make every day.

This is because the quality, quantity and cost of drinking water depend not only on treatment and distribution, but also on land stewardship and planning decisions. A broader set of actors – including policymakers, agricultural interests and the business community – needs to routinely consider their impact on the sources of drinking water. The impact is not always obvious. Decision makers should consider clearly visible point sources such as wastewater pipes, but also more diffuse origins of water pollution, such as runoff from farms, lawns and roadways.

The time to act is now. New assessments of drinking water sources, years in the making, are now complete for nearly all 160,000 public water systems in the country. While additional monitoring data is needed, more is available than ever before. What's more, as our population continues to grow and water demands continue to increase, the recent droughts and disasters have underscored our dependence on a safe and reliable water supply. Indeed, this is a time of opportunity: Action now can protect drinking water sources for generations to come.

### *How We Intend to Work*

---

Working together will combine the strengths of our diverse set of member organizations. It will also require a shared understanding of how we will work and what we intend to accomplish. By participating in the Source Water Collaborative, we agree to do the following:

- Share information with each other through regular communication and during quarterly meetings. This includes

sharing our most recent finding around the best practices in source water protection and the needs of people who make the decisions for both community planning and stewardship purposes.

- Develop recommendations together with stakeholders in land stewardship and planning, beginning with this document, about what is needed to protect sources of drinking water.
- Package and disseminate these recommendations, through the membership of our organizations, with partners and through the media, in ways that are useful in land use and stewardship decisions.

The collaborative has developed an initial action plan. But this is only a start. We expect our action plan to mature and change as we use authorities we have, reach out for new partners, and look for more ways to help key players integrate drinking water protection into their decisions around land stewardship and planning.

### *Goals & Objectives*

---

To do this, the Source Water Collaborative will encourage actions that:

- Contain or prevent contaminants, including pesticides, fertilizer, industrial waste, petroleum by-products and other runoff, from reaching the sources of our drinking water;
- Promote development patterns that limit threats to the integrity of lakes, rivers, ground water, water recharge areas or other sources of drinking water;
- Encourage matching uses of land with locations least likely to affect current or future sources of drinking water; and preserve the land needed to protect the quality of current and future sources of drinking water.
- This statement expresses our intent. It does not create any rights or benefits substantive or procedural, enforceable at or in equity by any person against any party to this statement. By signing below, we pledge to cooperate as outlined above to help all Americans – from homeowners to farmers to local official to business owners – protect our sources of drinking water.

**Jeff Soule**  
Policy Director  
American Planning Association

**Wm. Robert (Bob) Irvin**  
President & CEO  
American Rivers

**Andrew Richardson**  
President  
American Water Works Association

**Alexandra Dapolito Dunn**  
Executive Director & General Council  
Association of Clean Water Administrators

**Mark Premo**  
President  
Association of Metropolitan Water Agencies

**Jim Taft**  
Executive Director  
Association of State Drinking Water Administrators

**Paul Jarris**  
Executive Director  
Association of State and Territorial Health Officials

**David Zwick**  
President  
Clean Water Fund

**Sam Merrill**  
Network Vice President  
Environmental Finance Centers

**Jane Griffin**  
President  
The Groundwater Foundation

**Jay Farrell**  
Executive Director  
National Association of State Foresters

**Mike Paque**  
Executive Director  
Ground Water Protection Council

**John Larson**  
Chief Executive Officer  
National Association of Conservation Districts (NACD)

**Larry Naake**  
Executive Director  
National Association of Counties

**Kevin McCray, CAE**  
Executive Director  
National Ground Water Association

**Rob Johnson**  
Chief Executive Officer  
National Rural Water Association

**Nicki Bellezza**  
Region 3 Director  
North American Lake Management Society

**Robert B. Stewart**  
Executive Director  
RCAP, Inc.

**Todd Ambs**  
President  
River Network

**Clare Lindahl**  
CEO  
Soil and Water Conservation Society

**Geoff Anderson**  
President  
Smart Growth America

**Will Rogers**  
President  
Trust for Public Land

**Martina C. Barnes, AICP, PP**  
Regional Planner  
USDA Forest Service Northeastern Area,  
State & Private Forestry

**John Carter**  
Farmable Wetlands  
Program Manager  
Farm Service Agency  
U.S. Department of Agriculture

**Leonard Jordan**  
Associate Chief of Conservation  
National Resources Conservation Service,  
U.S. Department of Agriculture

**Nancy Stoner**  
Acting Assistant Administrator for Water  
U.S. Environmental Protection Agency

**Jerad Bales**  
Acting Associate Director for Water  
U.S. Geological Survey

**Kathleen M. Stanley**  
Executive Director  
Water Systems Council

**Gerald R. Iwan, Ph.D.**  
Director  
National Environmental Services Center,  
West Virginia University

**Peter Stangel**  
Chief Operating Officer  
U.S. Endowment for Forestry and Communities

Note: All actions that EPA may take in furtherance of this statement are subject to the availability of appropriated funds and the parties to this agreement will not submit a claim to EPA for compensation for services rendered as part of this agreement. In signing this statement, none of the organizations listed above, including the EPA, are obligating funds nor making a commitment to provide funding to any organization or individual in the future. Further, EPA cannot endorse the sale or purchase of products or services developed by the participating organizations.
